PROFILE

Efficient and Security-Minded Full Stack Developer with a proven ability to design, develop, and deploy end-to-end web applications. Skilled in crafting responsive front-end interfaces using HTML, CSS, and JavaScript (React/Vue), and building reliable back-end systems with Node.js/Express. Experienced with database management in MySQL, MongoDB, and PostgreSQL. Developed projects such as a responsive e-commerce platform and a Network Packet Analyzer, showcasing both technical depth and problem-solving skills. Known for adopting Agile practices, writing clean and optimized code, and quickly mastering new technologies. Eager to contribute to a forward-thinking, growth-oriented development team.

EDUCATION

Balakrishna.Matric.Hr.Sec.School	2020-2022
• SSLC - 92% • HSC - 71%	
SNS College Of Engineering	2022-2026
• B.E.Computer Science & Engineering (IoT & Cyber Security Including Blockchain Technology) • CGPA (Current)-7.82	

TECHNICAL SKILLS

- **Programing Language** : Java
- **Web Technologies** : HTML||CSS||JavaScript
- **Database** : SQL
- **Tools & Platform** : Git||GitHub
- **IDEs & Workflow Tools**: Eclipse||Visual Studio Code||Flutter Flow|| N8N tool
- **Productivity & Design**: Microsoft Excel|| Microsoft PowerPoint|| Canva|| Responsive Design(Basic)

INTERNSHIP

Falcon software solution Pvt.Ltd,Coimbatore.	July-Aug 2024
• Supported the creation of responsive user-facing interfaces using HTML, CSS, and JavaScript, ensuring seamless display . • Partnered with backend developers to integrate APIs, improving overall usability and enhancing the end-user experience.	

PROJECTS

- **Decentralized Clinical Trials** : Clinical studies conducted outside traditional sites, utilizing telemedicine and local healthcare providers.
- **AI Based Steganography** : Embedding confidential information within non-suspicious media using artificial intelligence techniques.
- **AI Based Finance Advisor** : Utilizing AI algorithms to provide financial advice and manage investment portfolios.
- **Created a To-Do list using Mern** : A web application for managing tasks, built with MongoDB, Express.js, React.js, and Node.js.
- **Smart Shoe For Blind** : Wearable shoes equipped with sensors to assist visually impaired individuals in detecting obstacles.
- **Food Spoilage Detection System** : A system employing sensors to detect and alert about food spoilage based on environmental conditions.
- **IR Parking system** : A parking management system using infrared sensors to detect vehicle presence and manage parking spaces.

CERTIFICATIONS

Completed Java Programming certification.	2024
Acquired HTML & CSS certification from Prepinsta.	2024
Participated in a paper presentation at a college-level technical event	2024
Certified in Cybersecurity & Privacy through NPTEL.	2024
Participated in a Hackathon at a college-level technical event	2023
Attended a technical workshop on AI-focused emerging technologies.	2023
Achived College level gold On Badminton.	2023
Achived State Level Gold on Archery.	2018
